Welcome . . .

Along Florida's southwestern coast, family adventures reach the beach and expand inland to wild animal parks and historical sites galore! Lee County, from Boca Grande to Bonita Springs, offers more than 50 miles of beaches famous for rare shells and calm Gulf of Mexico waters. Families particularly enjoy the gently sloping sands of Fort Myers Beach on Estero Island, long recognized as one of the world's safest beaches. Brilliant sugar-white sand for sculpting sand castles, and numerous public parks with plenty of amenities, make Fort Myers Beach an ideal family playground.

Heading to the mainland, families can hop on the downtown tram for a narrated tour of Fort Myers' colorful history. Along the way, stop at the side-by-side winter estates of Thomas Edison and Henry Ford, two famous friends who spent years as neighbors along the Caloosahatchee River. Also on the grounds is a museum showcasing the world's largest collection of Edison's inventions and memorabilia, including 200 Edison phonographs and his collection of rare antique automobiles.

Let the living history lesson continue at the Burroughs Home, where charming tour guides in 1920s-era costumes share insight about the Georgian revival-style home, considered Fort Myers' first luxury residence.

And the Fort Myers Historical Museum, housed in a restored Spanish-style train depot, showcases exhibits from ancient Indian civilizations to early European settlers. At the Children's Science Center, in Cape Coral, kids will marvel at the dazzling optical illusions, ferocious dinosaurs and stunning solar systems on display.

Lee County also offers plenty of "wild" family adventures. Visitors are immersed in native flora and fauna at the Calusa Nature Center and Planetarium, in Fort Myers, which features three nature trails, live-reptile exhibits, a freshwater aquarium and a natural history museum just for kids. Enjoy the planetarium's star and laser-light shows.

Located in Bonita Springs, Everglades Wonder Gardens is one of Florida's oldest wildlife attractions. The zoo and botanical gardens, established in 1936, feature exotic Everglades wildlife, from bears and birds of prey to panthers and crocodiles. For wild water fun, head over to Sun Splash Family Waterpark in Cape Coral, where 12 acres of slides and rides offer lots of thrills and spills for everyone. With the many other attractions and history, you'll say I Love Lee County!

Sincerely,
Armando Nargi, *President / Founder*

Cape Coral is the largest city in Lee County with a land mass at 114 square miles. It's history is built around the development of some 400 miles of canals offering abundant and waterfront living. There is something for everyone including: golf, tennis, fishing and community parks.

NORTH FORT MYERS

Stretched along the Caloosahatchee River, a variety of lifestyles from waterfront living to golf course communities, and everything in between. Home to the historic Shell Factory, Children's Science Center and Lee County Civic Center holds concerts, festivals and trade shows.

SANIBEL CITY & CAPTIVA ISLANDS

are recognized worldwide as a vacation destination. Outstanding shelling and a deep concern to preserve the island environment, have positioned Sanibel as a jewel on the Gulf Coast of Southwest Florida. Sanibel is home to pristine white beaches, balmy gulf waters and an unsurpassed lifestyle for both visitors and the islands some 6,000 residents. Art galleries, theatres and upscale resorts and restaurants dot this island getaway.

BONITA SPRINGS CITY

Located between Naples and Fort Myers, Bonita Springs offers a lifestyle for just about everyone. From award winning planned golf communities to serene waterfront living, Bonita Springs exudes an urban setting with small-town charm. Commercial parks, office space and retail services are keeping pace with residential growth, always with an eye towards preserving the community's outstanding quality of life.

ESTERO (Spanish for "estuary")

This part of South Lee County has grown to become its own destination with wonderful home communities within the original settlers of Estero. Estero has fine Malls and Outlets for every desire. Estero's Community Park is a great place for family and fun. You can also explore the Koreschan State Historic Site and Mound Key State Archeological Site. The Germain Area hosts concerts, sports teams with nearby Florida Gulf Coast University and the new, nearby Malls.

LEHIGH ACRES

is one of Lee County's fastest growing communities, with more than 33,000 residents now calling the community home. Affordable housing and a casual rural lifestyle are attracting a younger population, dominated by families, with a median age of 38. With a plentiful supply of land and convenient access to the Interstate and Southwest Florida Regional Airport.

What is Red Tide?

A red tide is a higher-than-normal concentration of a microscopic alga (plant-like organisms). This organism produces a toxin that can affect the central nervous system of fish. At high concentrations, the organism may discolor the water.

Is it safe to swim during Red Tide?

Yes, for most people. However, for some people, red tide can cause skin irritation and burning eyes. Use common sense - if you are particularly susceptible to irritation from plant products, avoid red tide water. If you experience irritation, get out & thoroughly wash off.
